COURSE DESCRIPTIONS

Mastery - The Journey To Self-Mastery:

The Mastery seminar currently represents the culmination of Matrix Energetics course offerings and is a Journey into Self-Mastery. In this groundbreaking training course, Melissa and Richard present in-depth and comprehensive templates of advanced skill-sets for students of Matrix Energetics' continued journey toward self-mastery.

You will learn how to locate physical/energetic areas of imbalance in the body, determine the cause of the imbalance and utilize specific energetic tools and techniques to correct imbalances contributing to the condition or problem. Dr. Bartlett and Melissa Joy have personally and professionally been using this new process consistently with very powerful results.

In the Mastery seminar, the skills you have developed and mastered in Fundamentals provide the foundational essence from which you will build upon with specific templates that can be utilized for manifestation, transformation and healing for yourself and others.

In the Mastery seminar you will learn:

- A 100% advanced protocol specifically designed to address a broad spectrum of health conditions and symptoms
- Powerful tools to explore the process of deep inner transmutation and self-mastery

- Further exploration and implementation of exercises for developing and honing your intuitive abilities

Psycho Emotional Energetics

Developed by Dr. Richard Bartlett and taught by Melissa Joy and Richard, Psycho Emotional Energetics will provide you with the newest breakthrough in Conscious Technologies and can assist you in changing long-standing emotional and psychological patterns in a few short minutes. Tested extensively by Richard in his distance Skype sessions and enhanced by Melissa Joy, who brings her own amazing contributions and skills to the mix, this brand new approach builds on the skills of Spatial Clairvoyance with advanced methods.

By learning to observe and interact with archetypal constructs, the participants of this unique seminar event will learn to recognize, access and then deconstruct long-standing patterns of thoughts and behaviors. These energetics forms can obstruct and distort an individual's beliefs, perceptions and actions. A series of breakthrough strategies will be taught that, when creatively applied, can in minutes and sometimes even seconds, change a lifetime of limitation and distorted conceptual references for personal reality. After these patterns of energetics information are reconfigured, life can be seen and experienced in a way that is free of these previously unrecognized perceptual filters. This is so fast and so powerful that it simply has to be experienced to be believed. And yes, you can learn to do these procedures on yourself as well as for your loved ones and clients.

There has simply never been anything quite like this! Benefits from this new approach can also be applied to physical patterns of pain, discomfort, and physiological disruptions to a healthy energy flow. With practice and playful application, this one new Consciousness Technology holds the very real promise of being able to change your emotional and psycho/physical references for all aspects of your earthly existence. If you have ever wondered if near instantaneous change for long-standing mind/body patterns is possible and attainable, the answer is a resounding YES!

Upon completion of attendance and participation in this workshop students will receive a certificate of completion. This course qualifies toward ME PC certification and maintenance. For complete ME PC maintenance requirements please see: <http://www.matrixenergetics.com/Practitioners.aspx>

ABOUT THE INSTRUCTORS

Dr. Richard Bartlett, D.C., N.D.

Developer of Matrix Energetics, Master Energy Dynamics
and Holo-Synchronous Energetic Technology Systems

Richard Bartlett, D.C., N.D., holds a doctorate in chiropractic from Parker Chiropractic College and a degree in naturopathic medicine from Bastyr University of Naturopathic Medicine. Dr. Bartlett has been teaching transformational seminars around the world to thousands of participants since 2003.

Dr. Bartlett decided to attend chiropractic school after meeting Dr. Jacque Rowe, an inspiring and unique chiropractor. While Dr. Bartlett was attending chiropractic school his second child was born with bronchitis and asthma and battled frequent bouts of pneumonia. Dr. Bartlett decided he would have to find the answer himself and embarked on a path of self-study, eventually learning and practicing more than 30 different healing systems. In the course of his studies, Dr. Bartlett learned TBM as taught by Dr. Victor Frank, a chiropractor. His son responded to this system and was healed.

After graduating from Parker Chiropractic College in 1987, Dr. Bartlett moved to Montana where he maintained a busy practice until 1996. Desiring to expand his practice scope in order to better serve his patient base and the increasingly complex clinical cases he was seeing, Dr. Bartlett decided to attend naturopathic school. His degree in naturopathic medicine was completed in December of 2000.

In 1996, Dr. Bartlett's life took a new and surprising turn. While attending Bastyr University of Naturopathic Medicine and working full time as a chiropractor, he experienced a life changing event which redirected the entire course of his clinical experience. Call it a mystical occurrence, a spiritual vision, outright hallucination, or as Dr. Jim Parker called it; the experience of being 'naturally right', suddenly the act of lightly touching a patient with focused intent created dramatic, often startling changes. Bones would re-align themselves, chronic pain patterns would disappear, often with only one brief session; scoliosis curvatures would re-align right before his eyes.

As time went on this phenomenon seemed to grow stronger, sometimes each week revealing new and marvelous outcomes. Chronic conditions began to change even though they were often not even a conscious focus for the treatment. In addition, people began to report that their emotional states, belief patterns, their very lives were mysteriously being transformed. Better yet, these changes appeared to continue over time. His practice, always emotionally satisfying; became a profound, and deeply moving day to day experience.

The biggest surprise was yet to come. Much to his astonishment he was able to teach his practice partner, Dr. Dunn, how to duplicate his results proving that this ability was not just some special gift, but rather a readily teachable system that in a weekend seminar could be learned and the results duplicated by the healing professional and lay person alike.

Dr. Bartlett has been teaching transformational seminars around the world to thousands of participants since 1992 and the feedback is even better than he had hoped for. These paradigms utilize the principles and sciences of Subtle Energy and Quantum Physics, coupled with the incredible power of active imagination and focused intent to produce physically verifiable effects that often defy rational explanation. Miracles happen every day. Matrix Energetics, Master Energy Dynamics, and Holo-Synchronous Energetic Technology Systems provide the technology and scientific framework to allow for their everyday occurrence.

Dr. Bartlett is the author of the award-winning Matrix Energetics: The Science and Art of Transformation, The Matrix Energetics Experience, The Physics of Miracles (with Melissa Joy Jonsson), and Into the Matrix (with Melissa Joy Jonsson).
