## COURSE DESCRIPTION

### HOLO-SYNCHRONOUS ENERGETIC TECHNOLOGY SYSTEMS\* THIS COURSE IS BEING OFFERED AS A COMPLETE THREE DAY SEMINAR

**Holo-Synchronous Energetic Technology Systems\*** is an advanced course format being offered for the first time! This course embodies Dr. Richard Bartlett's 25 years of knowledge and the knowledge of his master teachers. This course may be taken by anyone regardless of their level of medical or healing training. There is no prerequisite required to attend this course.

This course combines our Master Energy Dynamics\* and Master Harmonic Resonance Technology\* courses into a unique and easy to access format that will allow you to go deep into the path of the physiology of the body. You will learn to work with conditions and patterns and how to apply specific solutions and modules to create a new, healthy, and vital state of being.

Our M.E.D.\* course is a system for working in depth with the physiology, biochemistry, and energetic patterns of the body in the fight or flight stress response and working in the process of correcting conditions and patterns. Our MHRT\* course is an advanced system of modules that are configured to

work on specific health conditions and patterns. Combining the two courses together will allow us to go deep into the path of the physiology of the body with an easy to access format. You will learn to go through the reflexes and patterns that are involved in M.E.D.\* and then access the MHRT\* modules that are indicated for that particular type of pattern.

**M.E.D.\* TECHNOLOGY** explores physiological, biochemical and energetic reactions to the stress adaptation response and teaches the body's holographic systems to move out of those reactions and create a new, healthy, and vital state of being.

- Discover the system Dr. Bartlett developed and practiced successfully before he created Matrix Energetics. A system he considers so highly effective that he continues to utilize it today.
- Examine how, why, and what the body does when it moves into stress response.
- Learn how M.E.D.\* provides the holographic body a new strategy and a different reality.
- Learn how M.E.D.\* addresses every condition and every system.
- No Prerequisite is required to attend this seminar. No particular background or experience or expertise is required.

Unfold new skillsets, deepen your understanding and ability to interact with the holographic templates of the body's structures and functions. Learn how to engage with precise energetic patterns and to then deliver specific corrections to the holographic body systems in order to access the pathways of the fight or flight stress response. Teach the body how to 'see' its patterns of biochemical, functional, and structural adaptations to the stress response and thus be able, with a little help, to heal itself!

**MASTER HARMONIC RESONANCE TECHNOLOGY (MHRT)\*** was developed by Dr. Richard Bartlett in a download that he received intuitively from his guides, or angels as they call themselves. This protocol is a complete system of healing designed to clear deep-seated energetic imbalances and harmonic interference patterns from the body's energy field clearing the way for a more complete healing to occur.

The entire protocol will be taught utilizing a combination of lecture, Power Point, demonstration, and guided practice interaction for each part of the protocol. This step-by-step procedure is driven by a process known as Windows and utilizes proprietary consciousness technology developed by Dr. Bartlett called Modules.

This new protocol synthesizes a complete procedural system for energetic correction of patterns of disorganized function into a comprehensive approach. This protocol will work on family, friends, and animals and is an excellent method that can be applied for self-healing. It also works very well as a Premier Distance Healing Methodology using a surrogate, such as an acupuncture model.

Upon completion of attendance and participation in this workshop students will receive a certificate of completion. This course qualifies toward ME PC certification and maintenance. For complete ME PC maintenance requirements please see: <http://www.matrixenergetics.com/Practitioners.aspx>

## ABOUT THE INSTRUCTOR

### Dr. Richard Bartlett, D.C., N.D.

Developer of Matrix Energetics, Master Energy Dynamics and Holo-Synchronous Energetic Technology Systems

Richard Bartlett, D.C., N.D., holds a doctorate in chiropractic from Parker Chiropractic College and a degree in naturopathic medicine from Bastyr University of Naturopathic Medicine. Dr. Bartlett has been teaching transformational seminars around the world to thousands of participants since 2003.

Dr. Bartlett decided to attend chiropractic school after meeting Dr. Jacque Rowe, an inspiring and unique chiropractor. While Dr. Bartlett was attending chiropractic school his second child was born with bronchitis and asthma and battled frequent bouts of pneumonia. Dr. Bartlett decided he would have to find the answer himself and embarked on a path of self-study, eventually learning and practicing more than 30 different healing systems. In the course of his studies, Dr. Bartlett learned TBM as taught by Dr. Victor Frank, a chiropractor. His son responded to this system and was healed.

After graduating from Parker Chiropractic College in 1987, Dr. Bartlett moved to Montana where he maintained a busy practice until 1996. Desiring to expand his practice scope in order to better serve his patient base and the increasingly complex clinical cases he was seeing, Dr. Bartlett decided to attend naturopathic school. His degree in naturopathic medicine was completed in December of 2000.

In 1996, Dr. Bartlett's life took a new and surprising turn. While attending Bastyr University of Naturopathic Medicine and working full time as a chiropractor, he experienced a life changing event which redirected the entire course of his clinical experience. Call it a mystical occurrence, a spiritual vision, outright hallucination, or as Dr. Jim Parker called it; the experience of being 'naturally right', suddenly the act of lightly touching a patient with focused intent created dramatic, often startling changes. Bones would re-align themselves, chronic pain patterns would disappear, often with only one brief session; scoliosis curvatures would re-align right before his eyes.

As time went on this phenomenon seemed to grow stronger, sometimes each week revealing new and marvelous outcomes. Chronic conditions began to change even though they were often not even a conscious focus for the treatment. In addition, people began to report that their emotional states, belief patterns, their very lives were mysteriously being transformed. Better yet, these changes appeared to continue over time. His practice, always emotionally satisfying; became a profound, and deeply moving day to day experience.

The biggest surprise was yet to come. Much to his astonishment he was able to teach his practice partner, Dr. Dunn, how to duplicate his results proving that this ability was not just some special gift, but rather a readily teachable system that in a weekend seminar could be learned and the results duplicated by the healing professional and lay person alike.

Dr. Bartlett has been teaching transformational seminars around the world to thousands of participants since 1992 and the feedback is even better than he had hoped for. These paradigms utilize the principles and sciences of Subtle Energy and Quantum Physics, coupled with the incredible power of active imagination and focused intent to produce physically verifiable effects that often defy rational explanation. Miracles happen every day. Matrix Energetics, Master Energy Dynamics, and Holo-Synchronous Energetic Technology Systems provide the technology and scientific framework to allow for their everyday occurrence.
